

Session 4: Preparing and communicating positions effectively

13:45–14:05	Introduction to the session
14:05–14:10	Group discussion on what makes interventions/engagement effective in moving an 'agenda' forward
14:10–14:20	Sharing of top 3 points from the groups
14:20–14:25	Background on the national youth focal points – key 'ask' by the YOUNGO, and explanation of the group exercise
14:25–14:45	Group work to develop a one-minute 'pitch' to move the shakers and prepare for foreseeable Qs/reactions from Parties
14:45–15:20	Selling 'pitch' – one group sells the 'pitch', the other groups play Parties
15:20–15:30	Lessons learned – What would you do differently in your next advocacy statement to inspire actions by others?

Factors affecting national politics of climate change

institutional setups**

Partisan politics

What are the factors that affect international climate change negotiations?

Factors affecting international climate politics

- 01 Retention of status quo of geopolitical and trade balances
- 02 Balance and reciprocity
- 03 The need for consensus
- 04 Supremacy of national sovereignty (Party drivenness)
- 05 Costs of transition – and need for just transition arrangements
- 06 Operationalizing the principle of equity and common but differentiated responsibilities and respective capabilities, in the light of different national circumstances

The international context - tradeoffs triangle
