GREEN ENTREPRENEURSHIP

Have you think of any first steps to begin your Green Journey? Write it down 📝

BREAKOUT ROOMS Q&A

You will have 10 minutes to discuss these 2 questions in your break out room. Take your chance to lead the conversation and pass it to the next person to speak out 😊 Write your ideas 📝

1. Which pathway fits you the most and why?

2. What would help you pursue this green jobs pathway?

THE NEED FOR GREEN SKILLS

Green Restructuring		Reduction of road/air transport in favor of rail transport
Creation of New Professions		Solar energy technician, carbon accountants, etc.
Greening of Existing Jobs		Car mechanics must know how to repair electric vehicles, teachers adopting environment curriculums

Let's fill in the blank what you hear from the session!

TRENDS SHAPING THE GREEN ECONOMY

01

Demand for green talent will soon **outpace** supply.

02

Hiring of green talent is **accelerating faster** than overall hiring.

03

The fastest growing green skills come both from **mainstream** (recycling, renewables) and **emerging** (sustainable fashion, sustainable business strategies) sectors.

04

The volume of workers moving into green jobs is **too low**.

YOUR GREEN JOBS CAREER PLAN

1. What environmental, climate or biodiversity issues do you care about?

2. How could you address these issues through your day-to-day job ?

3. What is/are your dream green job(s)? What will your work  be about?
